The Seaboard Air Line has put on a package car service between Cincinnati and Tampa. Ocala will benefit . thereby.

One of the books at the public library bears the title of the "Imitation of Christ." There are not as many imitations of Christ in Ocala as there should be.

With the county now spending an average of \$44,000 a year on the upkeep of its roads, if the disbursements of the last three years are an indication, at the end of 30 years, length of time named for the proposed bonds, the county will have spent for up-keep \$1,320,000. And how much better off would the county be for roads at the end of that time?

The Star, as aforesaid, thinks it first page of the Weekly Star was will pay Marion county to bond for printed, Mr. Ben Raysor sent in a regood roads. We think, however, that port of Rev. Catts' speech at Lowell, it will not be good policy to bond un- and a schedule of his appointments less there is a large majority in favor for Marion. As our linotype was out of it. . We have noticed that bond elec- of action for the night, we could not tions carried by narrow majorities set the report, and were able to give have resulted in so much contest and the schedule in the weekly only by the see them at it, but as I have never bitter feeling that their benefit has kindness of the Banner, which set been greatly reduced, if not elimi- up for us. It is as follows:

They are no longer called jitneys in Jacksonville. Because they are painted yellow they are called yellowjackets.-Clearwater Sun.

Do they sting?-Tampa Tribune. They stung us the last two Sun days, on each of which we rode out to Silver Springs in one and had to take our choice between holding a fat man on our lap all the way back, walking or paying 50 cents to ride in a sureenough car.

Many are making the argument that Marion county would have all that is desirable in a road if the present lime and sand-clay roads were put in first class condition and then divided into districts and men with teams kept constantly repairing whereever any evidence of deterioration appears. The fact that the lime and sand-clay roads can be washed out over night by the hard rains seems to be lost sight of.

We have no doubt that most Americans will be glad if the Deutschland has run the blockade, and will be glad to hear she has won her way home. She has a brave and skillful crew, and it is hard to believe that the gallant and genial seaman, whose last words before his craft sought safety under the waves, expressed good wishes for America, belongs to the same nation with the sneaking assassin who torpedoed the Lusitania. However, we have a lot of mighty bad men in our own country, so we can't very well wonder that they are some among the Germans.

The British government is being roundly abused for the execution of Sir Roger Casement. It is easy to understand why Germans and pro-Germans assail Britain for this act, as they do for everything else, but the Star doesn't see why Americans should take it to heart, and especially why they should compare Casement to Washington or any other patriot. Casement was for years a trusted servant of the British government and as such was a bitter enemy of the Boers, an independent people who struggled to preserve their independence. The Star thinks his record put him much more in the class of Benedict Arnold than in that of Washing-

Although knowing W. V. Knott pretty well for a pretty long time, we confess the necessity of revising our impressions of him somewhat. From his quiet and mild, and even sort of scary demeanor we had drawn an impression of a lack of the necessary spinal column for the chief executive of a great state; but from the way he stands by his guns through this tremendous drive we're bound now to think that column goes all the way through without a limber spot in it, and that there is simply no scare to him .- St. Petersburg Times.

As a general thing, a quiet man like Knott has ten times as much sand as a noisy blusterer like-Fill in the blank for yourself.

It's the Star's opinion that the council will be unwise and unjust if it amends the plumbing ordinance against the recommendations of the judiciary committee. It will be unwise because nobody but a plumber has any business to do the work in question. Amateur plumbing work, in the matter of toilets and sinks, is of all things likely to cause sickness, not only in houses where such work is done, but in those where the work is done with care and skill. It will be unjust, because the city of Ocala exacts license from the plumbers who try to carry on business in its limits. and it isn't fair to them to turn their work over to every Tom, Dick and Harry who doesn't in return con-It's the Star's opinion that if the Throat, Law Library Building, Ocala, Anyway, I found out one thing about amendment is passed that the plumb- Florida,

PRECISE DESCRIPTION

OF BLACK POINT (Continued from First Page)

have us at the entrance of Black Point, a broad brick roadway forming a huge sweeping semi-circle, swept around to the toe of the horseshoe and circled around the immense doubledeck flagpole, from which Old Glory proudly floated, and as we rolled thru the gate and smoothly worked our way up towards the staff headquarmile or so, to the left of us the St. Johns river gleamed and glistened about two hundred yards away. The to our left and fanned us as it came

mile or more. Here the boys take ness. cartridges with little steel bullets sticking out of the end and put them in their guns; they then take a careful squint along the barrel of the gun, sbut their eyes, pull the trigger and tear a great big hole thru the air. When they open up their eyes target is still there, and they take another shot at it, and hit it in the same place. There is lots of excitement in As we stood talking Lloyd Maier battalion was in formation; as fast this target practice. I could write a seen them shoot, and get my information second handed. I think the above

is a pretty good description. The next claim to our attention was a number of buildings to our left, used for commissary stores, ammunition depots, etc., where the substance each company draws on these stores viz: a good quartermaster means a see him put on his best store manner, army.
